

APPENDIX B

From: David Gould
Sent: 04 December 2014 15:05
To: Licensing Mailbox
Subject: Application for Premises Licence: Thurlaston Country Park Ltd

Hello there

I have considered the application submitted by this company dated 6th November 2014, and wish to make representations in respect of the prevention of public nuisance licensing objective.

This is due to the potential for noise emanating from the proposed activities affecting residential properties in the area. I am also in receipt of complaints of excessive noise from the recent use of the marquee on site.

Noise related conditions were attached to the associated planning permission (14/0795/1/PX, approval dated 22nd October 2014) but I consider that appropriate conditions should be attached to any Premises Licence granted. I will write to the applicant to advise them of my comments.

I hope that this is useful.

Kind Regards

David Gould
