Subject: Thurlaston Country Park

Good Morning Mandy,

Further to our previous correspondence I would like to provide a representation for Thurlaston Parish Council for the above licensing application based on the preventing public nuisance objective for the following reasons;

- The Parish Council has received numerous complaints from parishioners after previous events held which all relate to noise nuisance that has gone on until 1am.

We would also like to make a representation on the Public Safety Objective as these events will bring a lot of extra traffic through the village which is why this was originally rejected by Leicestershire County Council. The road from Thurlaston to the venue is in no way suitable and the extra traffic and noise from this coming through the village between 12-2 am will inevitably cause safety and noise nuisance issues especially on winter evenings as this road is not on the gritting schedule and has limited street lighting in the village and zero lighting along the lane leading up to the venue.

There is also the issue of there being no safety crossing to the Recreation Ground and with the surge in traffic at peak times this is also a concern.

If you require any further information regarding this matter please do not hesitate to contact me.

Regards

Richard Currie
Thurlaston Parish Council
