Subject: FW: Application for a Premises Licence - Saffron Dynamo Football Club

Dear Mandy Geary, Senior Licensing Officer,

Re: Application for Premises Licence – Saffron Dynamo Football Club

With regards to the above application I wish to make representations concerning the proposed outdoor events only, with respect to *Public Safety* and the *Prevention of Public Nuisance*. Conditions added to the premises licence should prevent any concerns this department has relating to the two above licensing objectives.

Since last years' 'Festival on the Pitch' event we've received 3 complaints regarding noise. In light of these complaints, I feel that it would be prudent to include some noise management controls as part of the licensing conditions particularly pertaining to large outdoor events with music. We also received one or 2 complaints directly to our department regarding traffic management and litter.

I suggest the following conditions be added to any licence given in relation to large outdoor events:

Public Safety

- Prior to any large outdoor event (in excess of 500 people), the organiser should notify the Environmental Health Department of the Council at least 28 days in advance and provide risk assessments and an event safety plan as prescribed by the Environmental Health Department.

The Prevention of Public Nuisance

- The premises licence holders shall undertake an agreed noise monitoring scheme to ensure that the Music Noise Level (MNL) does not exceed LAeq (15 mins) of 65dB(A) over a 15 minute period at the nearest noise sensitive premises throughout the duration of the event
- During the event the noise consultant/competent person shall monitor noise levels at Wavertree/Ashover Close, Cosby and Cambridge Road, Whetstone and at any other sites deemed necessary by the Environmental Health Services department of the Council during the event
- All local residents likely to be affected by noise from the event shall be informed in writing as to;
 - i. The exact time of all performances and sound checks
 - ii. A contact name and telephone number should they wish to make a complaint of noise
- The premises licence holder shall comply with any noise control requirements made during the event by the Council's Authorised officer
- The premises licence holder shall nominate a representative to receive and respond to complaints throughout the duration of any large outdoor event

The times of outdoor music events, both for live music and recorded music should finish no later than 23:00hours, this is to prevent noise from becoming a nuisance to local residents. The above

guidance notes on noise levels are based on the presumption that the event will finish no later than 23:00hours.

I hope that this is of use and I will be copying my comments to the applicant,

Regards,
Judith
