Registering under the Data Protection Act 1998

17. That the fee for registering all Members of the Council as Data Controllers under the Data Protection Act be paid by the Council on behalf of all Members and that this be included in the Members' Allowance Scheme.

Reasons:

1. The majority of feedback from Members in the questionnaire was positive about the amount of basic allowance paid and the link to the NJC, it was felt that rises should remain in line with staff pay.
2. The Panel considered the current challenges facing local government and noted the increase in workload in some roles and as such these roles should attract an increase in allowances.
3. The Panel took into consideration evidence of the verbal representations received as well as the written representation from the Conservative Group. The panel also used benchmarking information from other Councils.
4. The Youth Council Champion's role is to support the newly formed Youth Council and attend several meetings with young people interested in local democracy and should attract a Special Responsibility Allowance.
5. The Panel considered the Conservative Group's request to amend the number of SRA's any one Member can claim. It also took into consideration the verbal representation received at the meeting. The Panel felt the current scheme was fair and appropriate.
6. Following a review of the Planning Committee structure, the Panel had recommended allowances for Members and Substitute Members of the Committee in December 2014. Council agreed in February 2015 that Members be paid £20 for each meeting they attend. For this reason the Panel had no further recommendations in respect of the Planning Committee allowances, but were comfortable that the amount be increased to a maximum of £25.00 per meeting.
7. The Panel felt the Dependent Carers Allowance was fit for purpose and in order to enable parents or carers to attend evening meetings, the allowance was essential.
8. After considering the Conservative Group's request to withdraw the travel allowances, the Panel felt that the claim form was not onerous to complete and the processing of claims was minimal work for Officers. The Panel looked in detail at the cost saving and resolved that the allowance allows a choice for Members on whether to submit a claim form or not. The Panel felt that by removing this choice, some Members who regularly attend meetings at the Council would be penalised and the increase in basic allowance would not recompense this loss. In addition, enhancing the basic allowance to cover the travel allowances would not be equitable for all Members due to the difference in distances they travel.
9. Regulations laid by the Government mean that local Councillors are no

longer eligible to join the Local Government Pension Scheme.

10. The Data Protection Act 1998 requires every data controller (including elected Members) who may process personal information to register with the Information Commissioner's Office (ICO), which requires each Member to pay a £35 fee. The Panel felt that it was appropriate that the Council administer the process and pay the fee on behalf of all Members.

THE MEETING CONCLUDED AT 7.00 P.M.
