Subject: Major Variation - Samy (County) Limited

For the attention of the licensing department,

Thank you for consulting our department with reference to the application for a Major Variation to premises licence number BLPR0026 in connection with the extension of hours for the sale of alcohol and the provision of late night refreshment at:

29 Pochin Street, Croft, Leicestershire, LE9 3HA

Having considered this application in light of the 4 licensing objectives, our department have no representations to make regarding the application. The concern our department has is regarding the opening times of the store in general, not specifically the hours of alcohol sales or provision of late night refreshment and therefore we have no reasonable grounds to make representation.

Advice for Applicant

Our department have received a complaint from a member of the public concerning late night noise, in connection with possible deliveries (23:00-23:30hrs) associated with the store. This complaint has not been substantiated. However, in the spirit of the licensing objective: **The prevention of public nuisance**, our department would not expect there to be any alcohol or late night refreshment deliveries between the hours of 22:00 and 07:00hrs. Ideally, we would not expect deliveries to take place after 20:00hrs.

Matters relating to noise from deliveries and other business associated activities will be investigated by our department under statutory nuisance law, so we advise the applicant to mitigate late night noise/disturbance issues by ensuring the following:

- All staff arrive and leave quietly
- No deliveries are planned for the hours between 20:00 and 07:00hrs
- No music is played inside the store so as to cause a likely disturbance to residents particularly during the hours of 20:00 and 07:00hrs
- Any collection and use of 3rd party delivery platforms to arrive and leave quietly

I trust this information is of use to both applicant and yourselves,

Kind regards

Judith
